

Instructions for Using RJMW WebMail

We are recommending that if you are not in the office to use web based email to speed up the Remote Access Server. To log into email on the web go to:

<http://mail.rjmw.com>

Click the Login Button to get the Login Screen

*****You might get a note saying that there is an error with the security certificate. Don't worry you are ok. Just click on Continue to get to the login screen.

When you get to the login screen as seen below:

You will need to click on Login and type in your information as below:

Username: RJMWCAT\”firstname”.”lastname”

Password: “your password for email”

Make sure that you put the **RJMWCAT** in front of your username. (Don't forget the “\”)

Please contact me if you have any questions.

Thanks,

Jay Crisp
Director of Training & Technology
